Hi,

I placed a presentation describing the proposed evaluation system for the T/MC on our egroups cc_staff (http://www.egroups.com/files/cc_staff/). Please take a look (email me if you have problems getting to it) and then let's discuss the pros, cons, and how to's of doing the T/MC evaluation. We can begin this discussion by email and continue it during our visit next week.

This evaluation system is one I have used with other complex initiatives such as the T/MC. It was developed by my colleagues at the University of Kansas. We recently got some funding from Fry to help apply this system for the T/MC. Part of my work will be to help adapt this system to best fit the needs of the T/MC. We will also get some help to apply this system "retrospectively" to describe T/MC's history of accomplishment since its initiation in 1993.

The proposed T/MC eval system will also be used to collect some data from KC, the recruitment campaigns, and any other important components of CC. But these other components (KC, etc) will also have web tools to collect and/or do data entry for the other things important to them (e.g., attendance, recruitment fair sign-in's, etc.).

I look forward to hearing your news. Sometime later today or early tomorrow I will post an outline of measures and tools for KC and the recruitment campaign.

Thanks, Steve

Hello,

No hurry, but I thought I'd check to see how we're proceeding with scheduling our 4 different evaluation meetings of next week -- KC, T/MC, Recruitment Campaign, and Grant writers' meetings. That's a lot of meetings but I thought it would be good to keep them separate since staff in each area do not work on or are interested in evaluating the same things (that is my assumption). Dan and others, if it is better for you we could have one longer meeting that combines KC and T/MC and then a separate grant-related evaluation meeting. Please suggest what you think makes most sense to you.

Here's what I know so far -- I have only emailed you as a smaller group because it looks like whatever you decide amongst yourselves will work out for everyone else: Reid (Recruitment Campaign meeting) is flexible 9-4 on Thursday and Friday.

Beth is available/flexible to meet between Wednesday and Friday.

Diane and Tony I have not heard from yet, but will prompt them with an email.

Dan, Gena, and Jackie -- what looks good?

I imagine each of you has set appointments and responsibilities next week and I know Gena is part-time now. Also, I want to take some time to observe how the KC program works.

My preference, at least for the KC and T/MC conversations would be to do them in the morning, maybe one on Thursday and one on Friday. Discussing evaluation in the afternoon can sometimes be a drag (sad to say, but this has been my experience). Then I can use the early afternoon to summarize and update products based on our discussion, and then see some KC programs in the later afternoon/early evening.

Thanks all,
Steve

PS

Please refer to the previous email I sent with a proposed agenda for each meeting and check/revise it to make sure we'll be covering what matters to you.

To Steve and CC Staff:

For the Kids Connection Eval System Discussion:

Time: Friday, August 4, 9:00 a.m.

Staff Attending: Jackie, Beth, Dan, Steve, and Sheridan

Location: The Kids Connection location at 542 W. Hobbie

For the T/MC Eval Discussion on thursday, Jackie prefers to meet at 9am.

I am not sure which meeting would be more applicable for me, the T/MC meeting, or the grantseeking meeting. At the kids connection, i solicit donations/contributions for wuz up (the student magazine) and ALL of the kids connection staff will be soliciting donations for yearly events, so maybe the grantseeking meeting would be better for us(jackie, sheridan, and myself.) I assumed incorrectly that grantseeking would be part of the t/mc meeting when i confirmed. If you and Dan think it would be beneficial for me to attend both meetings, that's fine too.

I suggest that ALL staff who solicit donations/contributions (Beth, Jackie, Sheridan, Jimmy, Diane, Aimee, etc.) attend the grant seeking meeting or the t/mc meeting - whichever is more appropriate - since as a group, i believe we may want to track on e-groups or on an eval. system who we ask for, what, and when so that as a staff we are communicating to each other who we have already been in contact with so as not to overlap when seeking contributions. This is less of an issue with the grants diane is seeking, but more of an issue with those of us who may be hitting the same places for similar donations(like me, jimmy, sheridan, jackie, and aimee.) Perhaps this is something we do not need to evaluate and can just be posted on e-groups, y'all let me know what you think.

Regarding the kids connection eval system meeting, jackie and i will give you a tentative schedule the beginning of next week. We were also wondering if at that time, dan and/or steve can show us how to attach files.

Thank you and talk to you soon

beth

Hi Steve -

I've been reviewing the information you sent. It's very interesting and I look forward to a more detailed explanation from you.

One question that came to mind is in regard to the MILS piece you sent. My question: is the system we're creating an integrated system? For example, in the Volunteer Table variables include DOB, address info and skills to share. The questions on the following page include "number of volunteers...hours served by volunteers...".

Currently we collect address information in our database (Filemaker Pro) and track attendance using Excel. To run labels we have to go to the database and to get attendance info, we go to Excel. The two do not interact with each other.

Based on the tables and the questions you listed, it looks like we could go to one place for all this information. Is that correct? Does this mean we have to input the information into one place or is there a way to use our current tools and link them together?

Gena

Hi everyone,

Here's the final schedule and some updates on the meetings based on your feedback. Please note, that these are not closed meetings -- everyone is welcome to attend to any meeting. The "grant seeking" meeting will be rescheduled for a later date and we'll use the current meetings to discuss some issues that will contribute to our eventual connection between grant seeking and evaluation. Aimee and Diane, please note that your attendance would be especially welcome at some of the meetings below. Also, I am not sure if Sheridan is on this group list, so if not could someone please make sure she receives this message by print.

Prior to the meeting, I would greatly appreciate it and it would be very helpful if you could do the following (many of you already have done this):

1. Review the files on the cc_staff egroup page and write down any questions or comments
2. Reflect on (and answer on paper) these two questions: What is most important about my work with Cabrini Connections? How could I best communicate the value of my work to so that others can learn from what I do?

Thanks everyone, I'm quite excited about our work together, Steve
