No, one time will do. I'll enter the one you gave me below in the "no count" category.

Steve

Steve,

If I give you one IP address will this cover all future visits from this address to the site or do I need to tell you each time I visit?

The IP address for this computer is: 209.86.100.114

I'll get you the others over the next couple of days.

Dan
