Put leading w between text columns so easier to read

Search - not working properly

Need Metrics ON inside pages

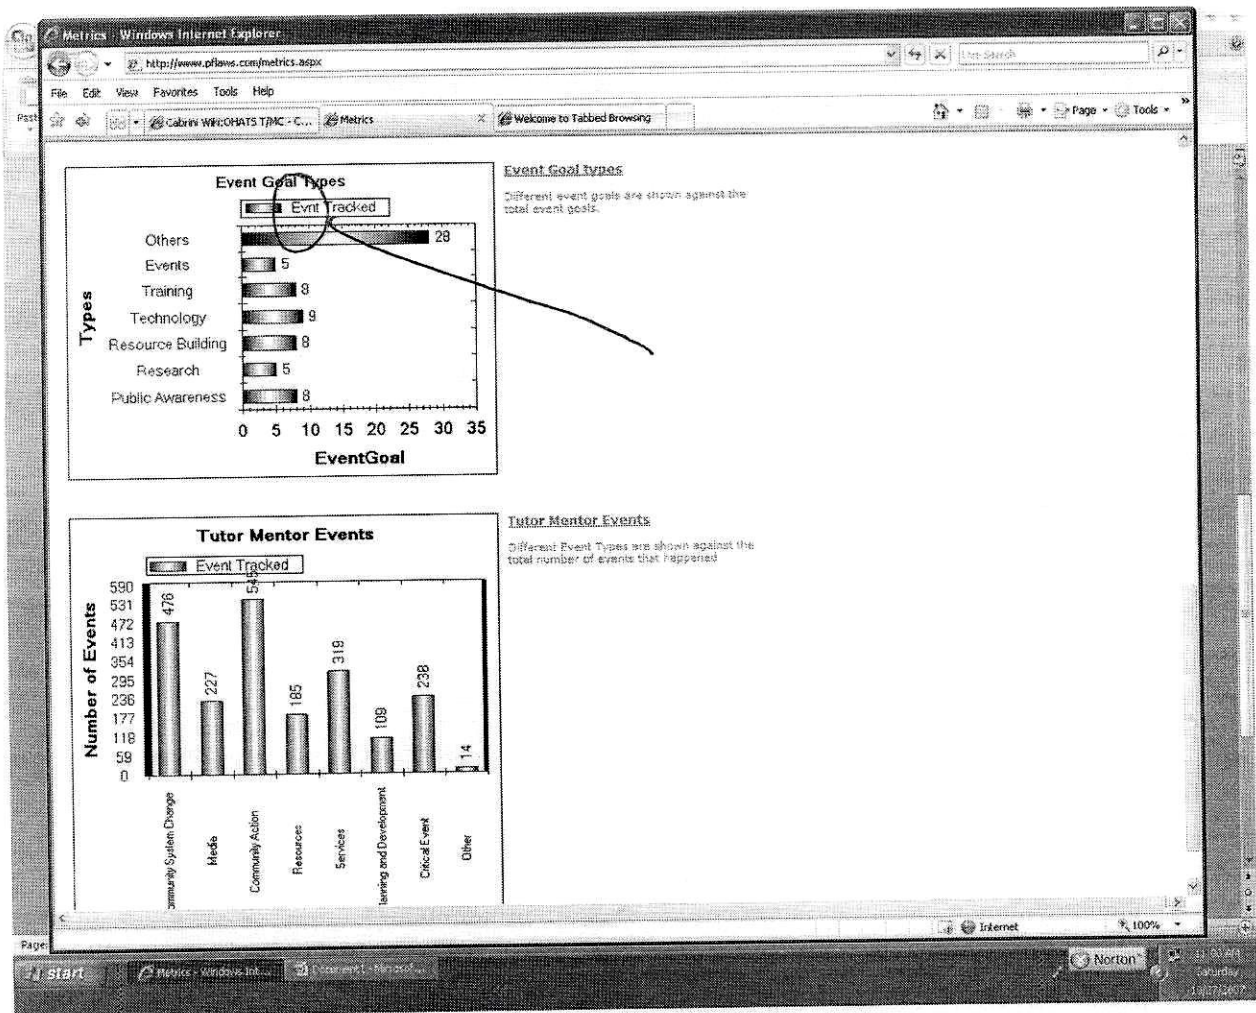

Address Book - why do all names have TMC

Delete 2nd & 3rd DAN Bassill - (How CAN I
check what
is linked to
ad?)

Key Location - I edited
Meet w / Ed Mulvaney to change
Date - why did it not
stick.

Filter by Location - only 2 Locations

Why does event chart on Home have
more slices than event chart in
Metrics

Under Tutor/Mentor events charts I want one more section, with a heading of

✂ Examples of Tutor/Mentor Connection Community Change activities as a result of actions documented:

Include links to - Map Gallery, —

http://webpages.charter.net/jcory17/geotech/tmc_directory.html - Program Locator,

<http://www.tutormentorprogramlocator.net/programlocator/default.asp> - T/MC links library,

http://cmapspublic.ihmc.us/servlet/SBReadResourceServlet?rid=1180119458133_1566509717_34175&partName=htmltext

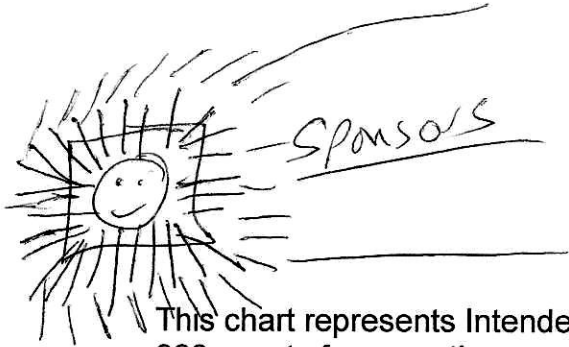

- endorsements (this is a NEW category of information that we need to code and document. I can go back through the spread sheet to add this. You'll need to add this to the create event field) . This may be something we need to pay to do.

Still need

$$C_T/M C_{III}$$

Font Text
option;

how do I assign password and give permission to people who are already recorders, from previous years. How do we limit editing permissions? This needs to be working before we go public.

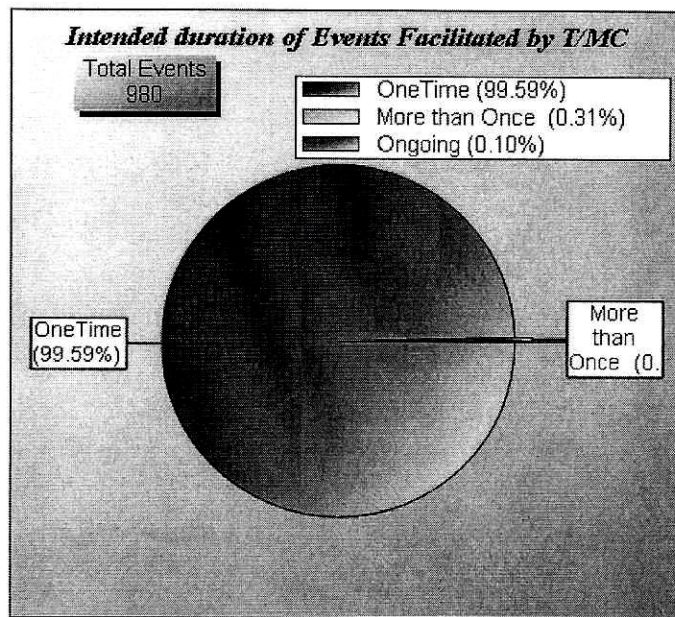

36-3893431
cab

This chart represents Intended event duration. We have only 3 events out of 980 events for more than once and 1 event out of 980 for ongoing. Hence we are not able to see the segments in the Pie chart.

As we have 976 records for One Time event the Pie chart appears like one segment.

Intended Duration of Events graph represents the Event Period

1. Events that occur only once are represented by the region "onetime"
2. Events that occur more than once but have a definite end date are represented by the region "More than once".
3. Events that are ongoing and do not have an end date are represented by the region "Ongoing"

GOALS

DATA NOT correct

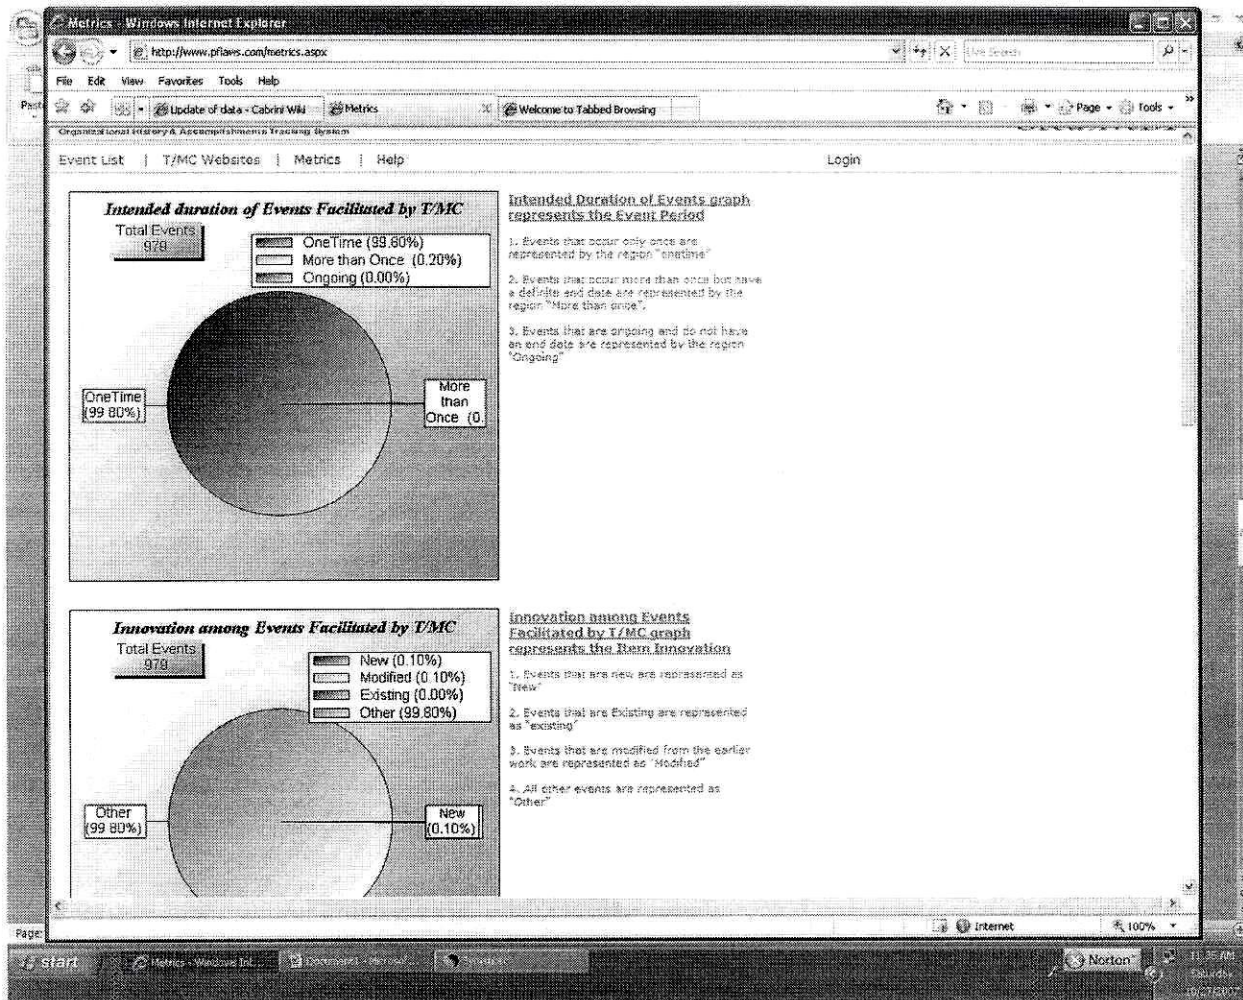

This Pie Chart represents item innovation. We have 1 out of 980 records for New Item and 2 out of 980 for Modified Item, and 1 out of 980 for Existing Item. Hence those segments are not visible.

As we have 976 records for other Items the chart appears like one segment.

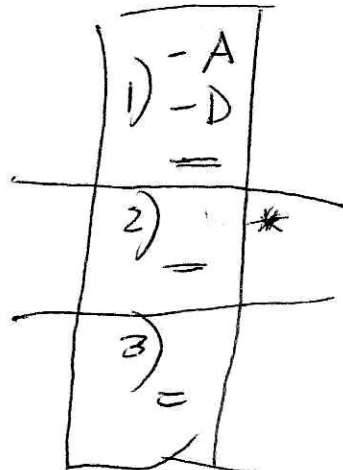

Novity — Colum B on spread sheet

METRICS DISCUSSION

Why are we able to see a pie chart on the Home page, with segmented categories, and not on the METRICS page?

EDIT

✱
✱

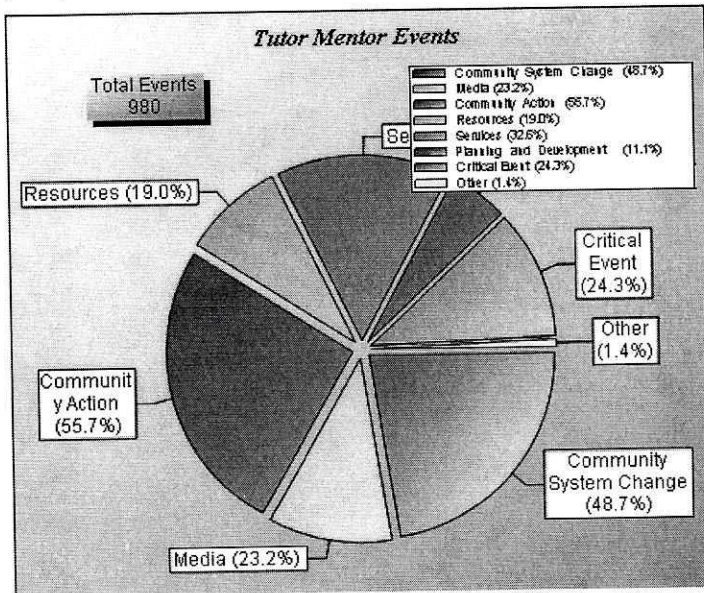

On the community System Change screen we need to be able to add a text overlay to highlight when key events were added, such as conferences. This may be something we do when we have money to pay someone to do this.

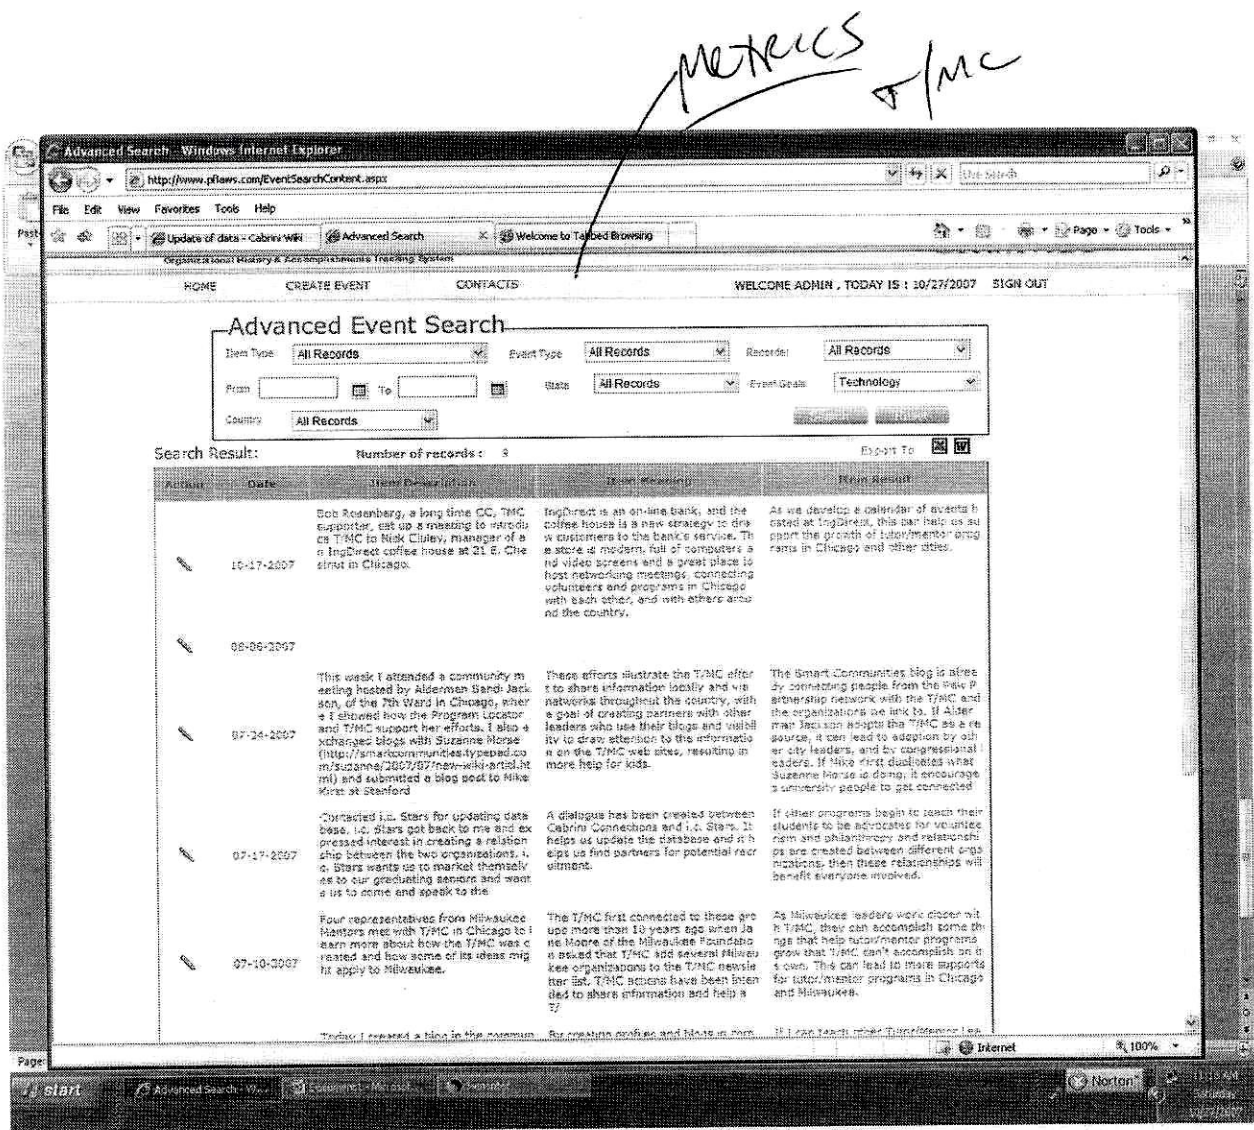

This Chart Represents Event Types. As there are values for the every event type it is divided accordingly and represented as segments in the pie chart.

Welcome to OHATS T/MC

Since September 2000, the T/MC has been using OHATS (Organizational History and Accomplishments Tracking System). OHATS is an Internet-based system for organizations to easily record and report important events, actions and lessons that take place during the day-to-day work to improve the conditions necessary for all youth to succeed.
[more]

This pie chart represents the type of events facilitated by T/Mc. An event may be grouped in more than one category. The percentage representation of different event types with respect to the total events are marked.

When I search in the Event Type field, I only get 2007 events. However, when I search in Event Type field, I get a search of all years. Can you fix this.

Can I search combinations of one or more search condition, such as date range, event type, Event date and name of recorder?

Action	Date	Item Description	Item Meaning	Item Result
	10-24-2007	Set up eGroup for Chicago organization s that received the first round of Beau mont Foundation technology grants as an outcome of our first networking meeting held today at Bethel New Life in Chicago.	This uses technology to expand our net working and collaboration capacity	Better working relationships. More shar ing of ideas. Possible collaboration on P R and funding strategies.
	08-07-2007	T/MC created small ads for the volunte er recruitment campaign with a goal th at these would be used in a variety of media to draw visitors to the T/MC web site locations where they learn to be vo lunteers. EXTRA NEWS, which serves L atino Chicago agreed to not only print t he ad, but to launch a campaign to enli st other advertisers to pay to have the ads run weekly. The ad format will be t he same, with the logo of the company paying for the ad being shown in each different ad.	This is a way to get consistent T/MC ad vertising in multiple media throughout the year. If EXTRA succeeds it is likely that other papers, in other markets of t he Chicago region, will duplicate the ca mpaign.	We don't have money to advertise, but consistent, wide reaching advertising is needed to build consistent support for t utor/mentor programs. This is a way to generate that advertising at no cost to the charity.
	07-10-2007	Four representatives from Milwaukee M entors met with T/MC in Chicago to lea rn more about how the T/MC was creat ed and how some of its ideas might ap ply to Milwaukee.	The T/MC first connected to these grou ps more than 10 years ago when Jane Moore of the Milwaukee Foundation ask ed that T/MC add several Milwaukee or ganizations to the T/MC newsletter list. T/MC actions have been intended to sh are information and help a T/	As Milwaukee leaders work closer with T/MC, they can accomplish some things that help tutor/mentor programs grow that T/MC can't accomplish on its own. This can lead to more supports for tuto r/mentor programs in Chicago and Milw aukee.
	04-01-2007	An attendee list was added to the htt p://www.tutormentorconference.org w eb site. This enables people to be listed in a public roster, as they register for t he conference. That allows others to se e who is attending, and even make con tact if they want to arrange a meeting at the conference, or after the conferen ce.	This is an important feature because it expands the networking value of a conf erence. People can meet more of the p eople they want to meet. They can sta y connected after the event, which lea ds to implementation of the ideas of a conference.	We hope others who organize face to fa ce events will duplicate this, creating p ublic directories of attendees, and on-li ne forums where attendees can networ k. This will lead to better connections o f more people
	01-23-2007	Nithya Rajan, a University of Chicago G raduate Business School, joined the Tu tor/Mentor Connection as a Net Impact Intern. She'll work with us for six mont hs. Her focus will be to build participati on in the Business School Connection p roject described a	If we can get this project off the groun d it will provide a renewable marketing resource that will draw volunteers and donors to tutor/mentor programs in Ch icago and other cities where major uni versities are located. I've been trying t o recruit someone t	This can grow to generate operating co sters and volunteers for Tutor/Mentor P rograms in the same way that the Lend A Hand Program is drawing support fro m Chicago's legal Community.
	12-18-2006	The Abraham Lincoln Marovitz Lend A Hand Program of the Chicago Bar Asso ciation distributed \$46,000 in grants an d awards to 20 different volunteer-bas ed tutor/mentor programs in Chicago. The ceremony was held at the law offic es of Much Shelist Freed Denen	Without providing the dollars programs need to operate, or improve, the city w ill never have a full range of effective t utor/mentor programs helping kids sta y in school and move to careers. This e vent demonstrates the T/MC strategy o f enlisting business	The LAH will continue to raise greater v isibility and more dollars and will use th ese to support new and existing tutor/ mentor programs in the region. This id ea will duplicate in other cities, and oth er industries, generating even more res ources for tutor
	11-15-2006	Today the Lend A Hand program receiv ed a \$2 million Sy Pres Award from the Chicago Sun Times, to be used to fund volunteer-based tutor/mentor program s in Chicago. The Lend A Hand is being re-named "Sun Times/Marovitz Lend A Hand Program".	This increases the annual grant pool fr om around \$30,000 to as much as \$30 0,000 or more per year, and it dramati cally raises the visibility of the LAH in t he Chicago Business and Professional Group	The larger grant pool will enable larger, more impactful grants to go to tutor/m entor programs, meaning more progr ams will have the resources to connect y outh and volunteers in on-going progr ams. It also means start up programs ca n be supported in neighb
	07-12-2006	The 3rd Annual My Hero Award Lunch a s held at the Standard Club in Chicago. More than 200 lawyers, judges, law fir m reps and tutor/mentor leaders and s tudents attended. Awards were given t o recognize the work of judges, lawyer s and law firms in supporting	This event encourages members of the legal community to get involved in tuto ring/mentoring programs and recogniz es those who do. It's a fantastic exam ple of what could be happening in other industries and other cities.	More members of the legal community will get involved with various program s, and will make donations to the Lend A Hand, for reganting to programs, or directly to individual programs.
	04-25-2006	Today the new IUPUI web portal was tr ansferred to the www.tutormentorconn ection.org site, thanks to the help of IU PUI and T/MC volunteer Matt Mead.	The goal of creating a new portal was t hat it would replace the original T/MC f ormat, making our information more in teractive to users from around the worl d. We have been operating with two sit es since July 2005 when the portal was launched. Now we can re	More and better information, easier to use, more opportunities to interact. Thi s means better service.
	04-24-2006	Today the new version of the Program Locator went live. This enables tutor/m entor programs to add/edit their own i nformation on-line, and includes the co mplete Tutor/Mentor Program Profile. T his work was done by Vanshee Bhupat hiraju, who came to the T/M	This enables a small non profit to collec t information from programs throughou t the region, with programs sharing the responsibility for keeping data accurat e. This means we can provide better d ata, and begin to offer the service to ot her communities.	With better data more people will use t he service. With the entire profile on lin e, we can begin to create summary rep orts that show the number of youth, by age group, and type of program, being served in specific zip codes. Programs c an use this for fund
	03-09-2006	MENTOR has scheduled an on-line tuto r/mentor eConference forum in their w ww.mentoring.org/community for May 8-12, 2006	This will increase the number of people connected to recruitment information a nd to the T/MC conference and its parti cipants.	This can lead to econference collaborati on among other youth serving network s from around the world, creating more learning and networking opportunities, and creating greater visibility for volunt eer-based tutoring and/or mentoring
	03-04-2006	The Lend A Hand Program and the Chic ago Bar Association co-hosted a Fifth A nnual Barristers Big Band Benefit Ball	This illustrates how business and profe ssional groups can take a lead of raisin g visibility and dollars to fund voluntee	The money raised by Lend A Hand each year will provide grants of \$1,000 to \$8,000 to up to 20 different voluntee

The heading of all pages (once someone has logged in) should include: Home; create event; search; metrics; contacts; T/MC web sites

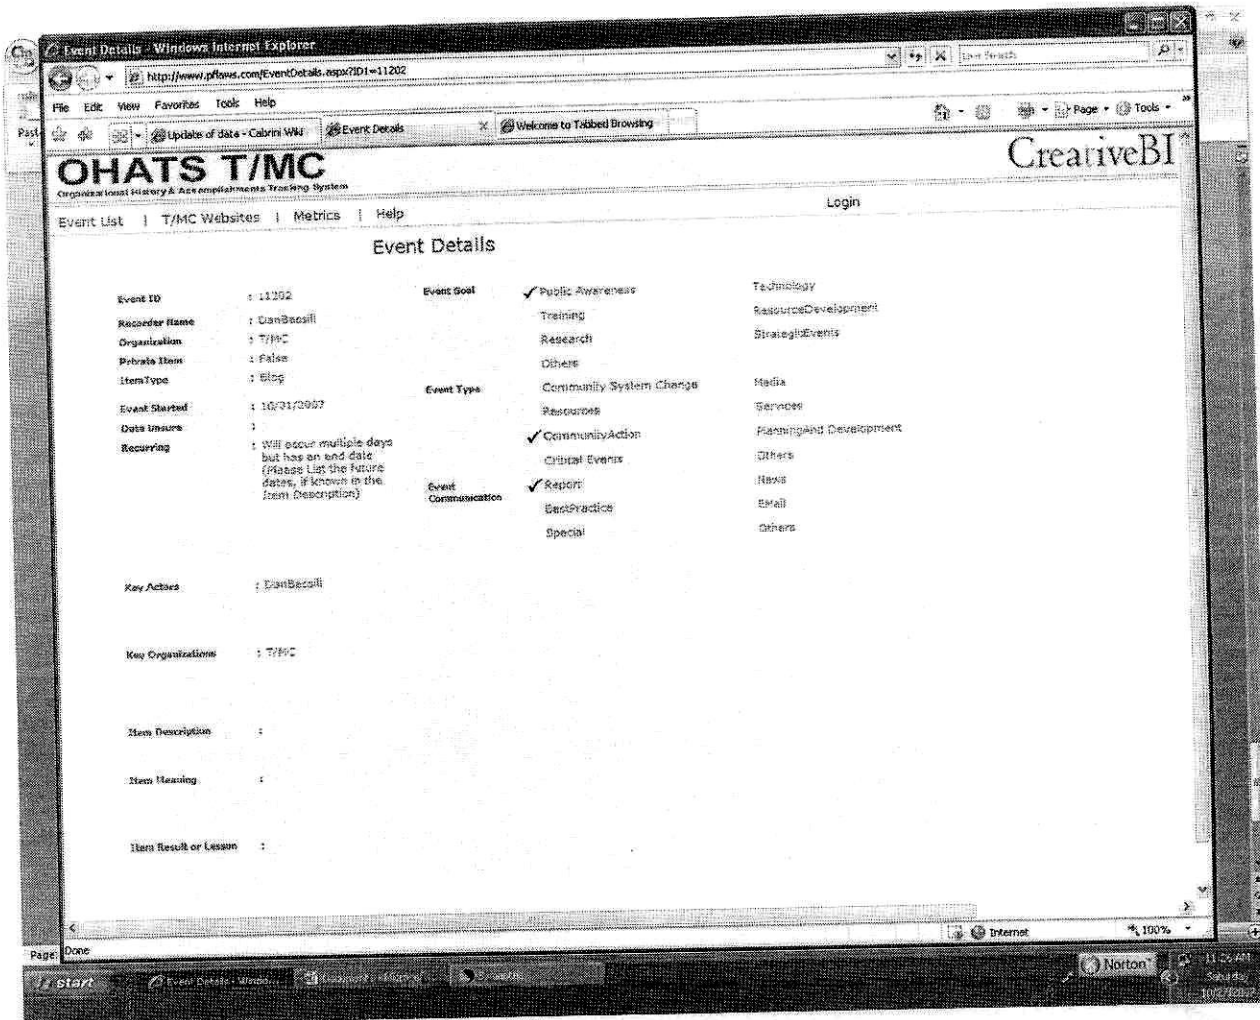

Home should have a drop down menu, with Internal; External; Key Locations; Archives (which you have on the log in page now)

Can you re-order the Advanced Event Search fields

Switch positioning of Event Goal with Item type.

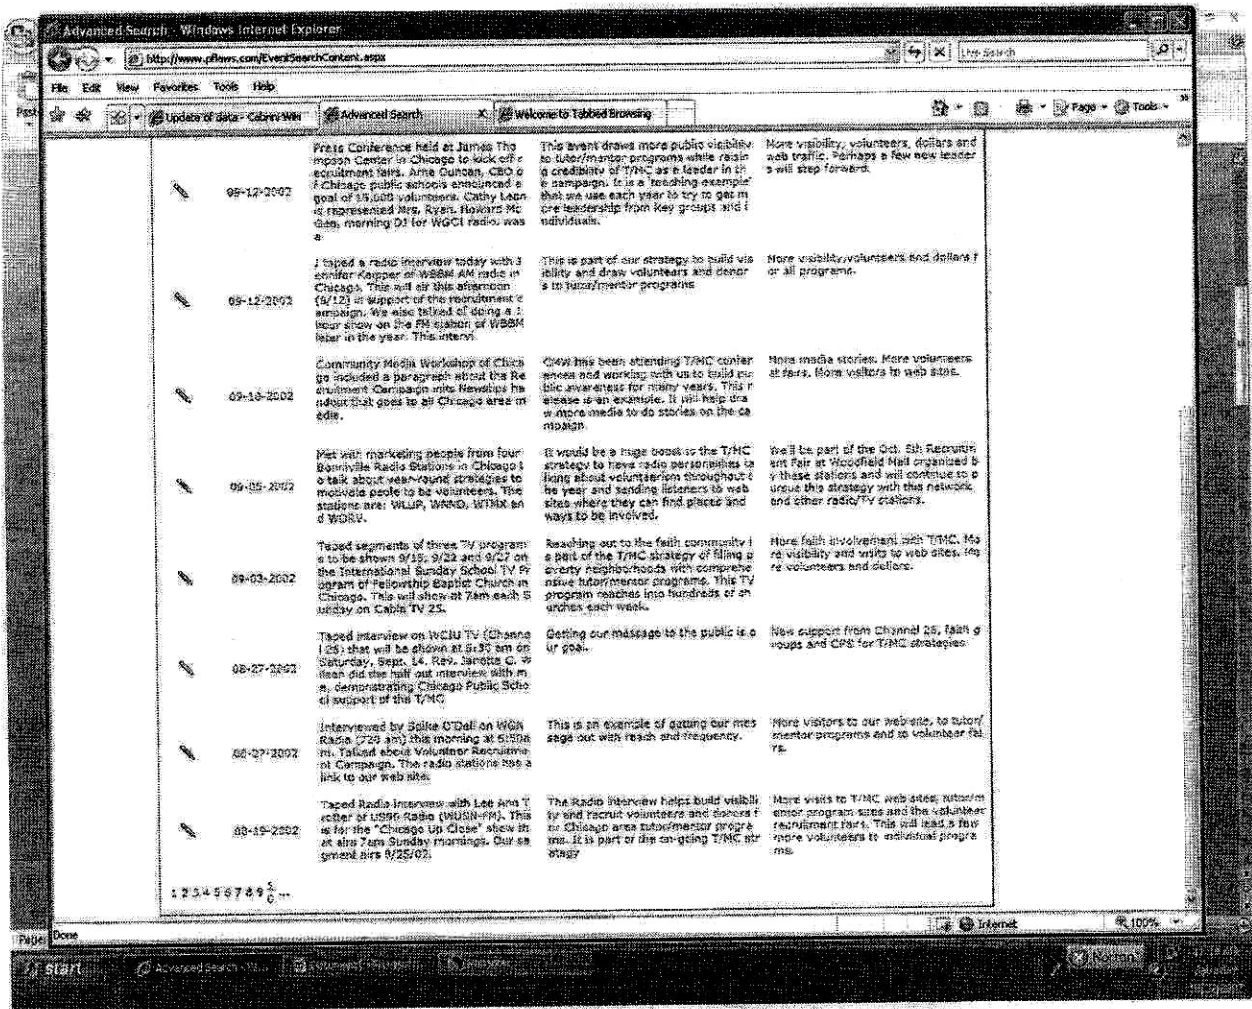

ACTIONS column in search Result – this is confusing

- I'd like to be able to click on this to get a screen that shows event details, similar to what you built into the log in page (see below)
- On the full EVENT DETAILS screen there should be an EDIT DETAILS button, that takes you to the CREATE EVENT screen where you make changes. Only people with permissions can edit.

I really like that we can view event details like this. CAN THE EDIT EVENT button be on this page instead of the previous form?

I have the same comment here as on previous page. The search does not seem to bring up all years. Plus I want to be able to search in combinations.

At bottom where you show page numbers, can you add "NEXT 10" or NEXT so you can scroll to more pages

The spacing looks much better now.
